

Musterlösungen zu Kapitel 12

H. Mössenböck: Sprechen Sie Java

Aufgabe 7: Codeverbesserung

- `p = null;`
- `p = current;`
- `exit = current.val == val;`
- `while (p != null && p.val != val) { ...; p = p.next; }`
`// p == null || p.val == val`
`if (p != null) ... // p.val == val`
- `previous.next = current.next; current.next = root; root = current;`
- `while (p != null && p.val != val) p = p.next;`
- `current.next = root; root = current;`
